

In Painful Cerumen Impaction

^{Rx} **Cerusoft** [®] Ear Drops

Turpentine oil + Paradichlorobenzene + Chlorbutol + Benzocaine

The adaptable antiwax solution

Paradichlorobenzene

- Most superior ceruminolytic, compared to sodium bicarbonate, acetic acid
- Emulsifies ear wax, helps easy removal

Chlorbutol

- Dual role of preservative and antimicrobial action

Benzocaine

- Prompt relief from pain and discomfort

Turpentine oil

- Perfect solvent for impacted wax

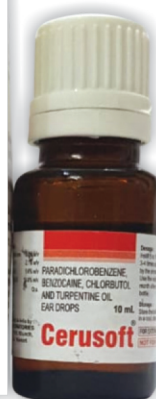

**Delivering Unmatched economy
with Topclass quality**
